

Select Agent Toxins Exempt Quantities Transfer Form (within the United States)

Purpose:

Under the Federal Select Agent Program the “due diligence” provision requires that transfers of Select Agent Toxins in amounts that otherwise would be excluded from the select agent regulations must be documented in order to assure that the recipient has a legitimate need to handle such toxins.

Toxin Information:

Toxin		Date of Transfer	
Amount of Toxin Transferred (listed in µg or mg)			

Distributor:

Principal Investigator (Sender)	
Phone number	
Email address	
Mailing Address	
Stanford Department	

Recipient:

Principal Investigator (Recipient)	
Institution/Department	
Phone number	
Email address	
Mailing Address	

Certification:

I as the Principal Investigator distributing the material have verified that the recipient has a legitimate research need to use the above listed toxin. Please document below the legitimate need (e.g. prophylactic, protective, bona fide research or other peaceful purpose).

PI/Distributor _____ Date _____

Please attach any supporting information (ie. emails or other correspondence). Records must be kept for 3 years.
